mighty party crazy in love pack

This guide is incredibly helpful and though he goes a little fast sometimes, it isn't difficult to rewind. I am quickly getting better using the few features I already knew and learning new ones as well. Great guide.

Only issue is the streaming service, itself.. OMG, Best game Ever  
Game Of The Year Lol

i really enjoyed this game, But the thing is there is no more coins for upgrading

But the online is still alive

37MB are Worth it <3

. Lemmings with a tile switching twist. Can't find fault with this game for delivering the goods to its intended audience.

Don't let the dodos go doodoo.. THIS. IS. ♥♥♥♥♥♥ DON'T BUY IT!. BUY. the most relaxy of all of the relaxy games ever. all i ever do is fly around and collect stuff for my nest. probably there is a point to this game, but i just like to fly around and feel superior to all of the humans who have destroyed everything.

All of the other relaxy games need to just go home. Copoka wins.. Thanks for a great game! My five-year-old just loved it and we played through it together with me helping on some of the more difficult puzzles. Wonderful graphics and good story. More please!. Amazing rogue-like that is getting better by the day. This is the good stuff.

As a rogue-like veteran of 20+ years, this has become one of my favorites overnight.. It's difficult to explain why I'm not recommending this game, because in the end it has a lot of value. But, dunno, it's too slow and didn't resonate with me. I tried many times to finish it, but it feels more like a guessing game than a real strategic.

That said, the game has something to say and if you have some spare money and like to risk, I'd give it a try. At least, it's very different from every other game of the series (Caesar, Pharaoh, Zeus...). I have some complaints about it, mainly presentation wise. The text to voice software didn't do the game any favors, I seriously would've looked for some real voice talent for this. My mouse kept getting off center and it got to be annoying at times.

The atmosphere was really good and I didn't see the twist coming until near the end. One thing that might've made it a bit better is if the choices had a bit more of an impact on the story, say Adam coming to terms with what he'd done or going even deeper into denial.

It was short but it did what it needed to.

I was going to demo this for 5 minutes before bed. An hour and a half later I'm finally doing so. Didn't realize I'd be hooked so fast. It's a nice little game to keep yourself occupied with.. Where is the third part of the series?. A heartwarming visual novel that has no choices and a good story, there are no sexual content and I don't know why the tag is there. Mori is precious and worth protecting. I played these brick breaker games growing up and this definitely brought me back. Lots of fun! Good work on the game! Easily worth the price.. Yeh this game is good but could use better controls.. Hell of a game for 1 dollar. That's all I got to say about that.. Lots Of Fun! Brings back Memories of my Kid Times.  
Great Game, Low GPU Overhead, Video Card Fans never even come on. Lol.  
A+A+A+. This is awesome! thank you :)
